

STORE & FORWARD

REFERENCE GUIDE

FOR NURIT 20XX, 30XX, 8000 AND 8320

APPLICATION POS 4.7X AND HIGHER

Store & Forward

This feature is used to store swiped transactions at the terminal level when there is no phone line available (Or no coverage for wireless devices) The transactions can then be uploaded for approval when a phone line becomes available so the merchant can get the same swiped rate.

FUNCTION DESCRIPTION Store & Forward (Offline Mode) will give the following six different options:

- Mode Select
- Display Transactions
- Reports
- Upload Transactions
- Resend Failed
- Delete Failed

Please Note: The screen displays in this manual are representative of general Nurit displays. The actual display will change with the Nurit model.
