★ Optimal Usage Environments

### Where There's A Need, There's A V<sup>x</sup> 510.

From the efficient V<sup>x</sup> 510LE and the performance plus V<sup>x</sup> 510 to the high-speed V<sup>x</sup> 510 Ethernet and versatile V<sup>x</sup> 510 GPRS, each V<sup>x</sup> 510 device offers its own set of unique strengths backed by shared family traits. Take business to profitable new places with the V<sup>x</sup> 510 family.

- V<sup>x</sup> 510LE – ideal for small merchants and offers big features in a space-saving size
- V<sup>x</sup> 510 – compact size and price with enough memory for value-added applications such as loyalty and gift cards
- V<sup>x</sup> 510 Ethernet – dual connectivity speeds transactions and offers the robust memory for value-added applications
- V<sup>x</sup> 510 GPRS – instant broadband connection that can be used anywhere there's a power source

### Shared Traits. Uncommon Abilities.

Each V<sup>x</sup> 510 runs on the proven V<sup>x</sup> platform with the same familiar user interface. Plus, they are as easy to install as they are to use. All are PCI PED approved to ensure compliance with the most stringent security standards. Pair their common foundation with their individual assets and you'll see why the V<sup>x</sup> 510 series is the definition of functional family.

All from VeriFone. The trusted leader in payment processing.
